

Evaluations of Refugee Week 2006 -2009

Welcome to the Refugee Week Evaluations archive.

Each year the the Refugee Week team commission an evaluation of Refugee Week nationwide. The evaluation addresses important issues such as the key successes and challenges of the week, the role of partnerships and the impact of the week as a whole.

They also offer a detailed view of each years successes and challenges, enabling us to learn from the negative and develop the positive ideas for future Refugee Weeks.

Thank you to everyone who gave us their feedback, without which this evaluation would not have been possible.

These evaluations would not be possible without your feedback. You can contribute to the national evaluation by [evaluating your event](#).
